*We would like to recognize those who worked countless hours to assist Appomattox County with the tornado and recovery efforts. As a result of the dedication, professionalism and courage, the impacted areas were successfully managed. Search & Rescue Teams were activated, the injured were treated, and a very complex scene was investigated, controlled and debris was removed. The local and surrounding area Volunteers and paid Emergency Services, Fire and Rescue Departments, Law Enforcement, Community Groups, Faith-based Organizations, Citizens, and Local & State Government employees response was tremendous and the County sincerely appreciates all who unselfishly devoted their time and expertise to lessen the impact of a very difficult and complex situation for many of our citizens.*

*September is also “National Preparedness Month” and the County would like to take this special time to pay tribute to the local emergency services for sharing their valued talents with our community. Everyone (Local, Regional, State) who is affiliated with  
**Law Enforcement, Fire or Rescue**
